Supporting Teva Oncology Products

Reimbursement assistance and support through **CORE** — the **Comprehensive Oncology Reimbursement Expertise** program — is not a guarantee of reimbursement. Reimbursements are based on eligibility and medical necessity at the time a claim is received.

Teva Cares Foundation is a group of patient assistance programs that provides Teva medications free of charge for eligible patients who qualify.

Teva Oncology also provides support to patient advocacy organizations that have programs designed to help patients access the treatment they need.

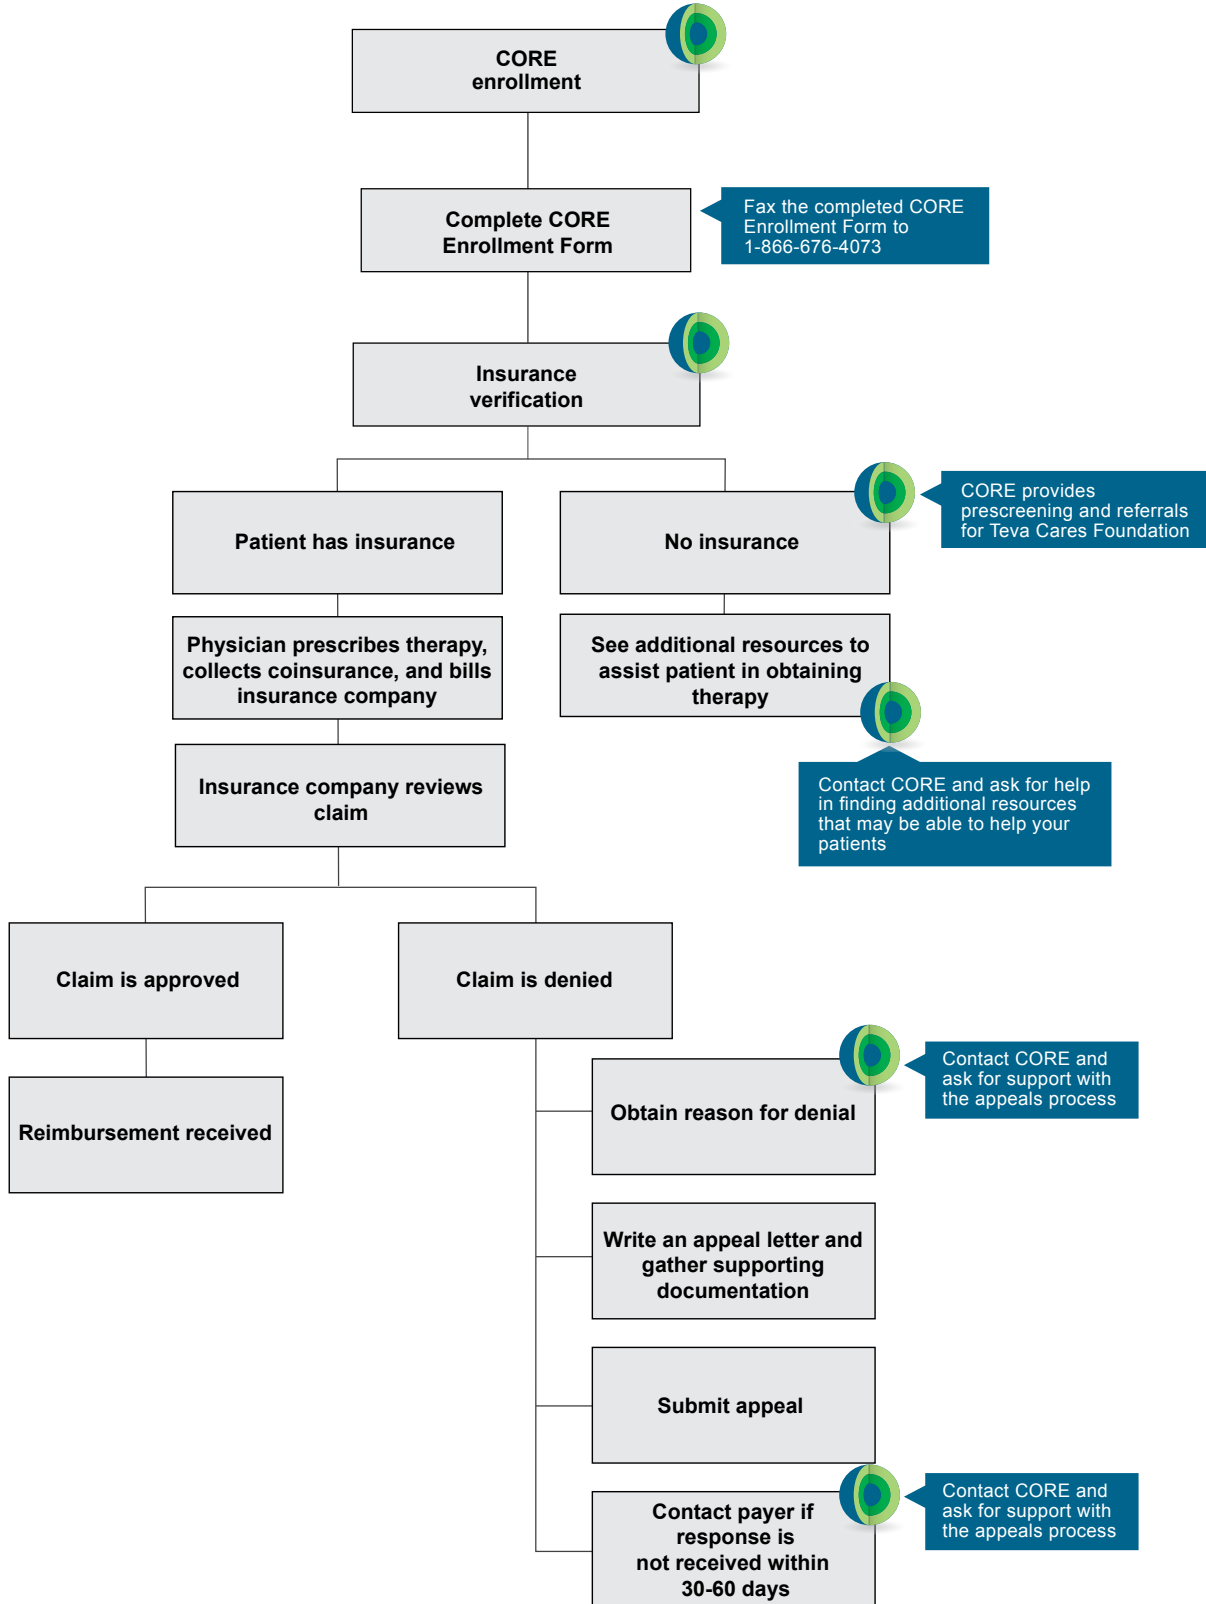

For more information on CORE, call 1-888-587-3263 or visit www.TevaCORE.com

Reimbursement Process Example

Teva Oncology is committed to helping patients & providers navigate the reimbursement process

 At any of these steps, CORE is there to provide assistance.

Reimbursement assistance and support through **CORE** — the **Comprehensive Oncology Reimbursement Expertise** program — is not a guarantee of reimbursement. Reimbursements are based on eligibility and medical necessity at the time a claim is received.
